

REMARKS/ARGUMENTS

The Office Action has been carefully considered. It is respectfully submitted that the issues raised are traversed, being hereinafter addressed with reference to the relevant headings appearing in the Detailed Action section of the Office Action.

Amendments

The Applicant has canceled claims 1 to 11 and has introduced new claims 12 to 22 directed toward a plurality of camera control print media. Support for new claims 12 to 22 can be found in relation to pages 8 and 9 of the specification.

Response to Arguments

The Applicant respectfully disagrees with the Examiner's conclusion that previous claims 1 to 11 are considered unpatentable over Sarbadhikari et al. in view of Hara et al. However, in order to expedite the allowance of the current application, the Applicant has introduced the new claims 12 to 22 to more clearly define distinctions over the above-mentioned citations.

The Applicant respectfully submits that new claims 12 to 22 are patentable over the above-mentioned citations.

In view of the foregoing, it is respectfully requested that the Examiner reconsider and withdraw the rejections. The present application is believed to be in condition for allowance. Accordingly, the Applicant respectfully requests a Notice of Allowance of all the claims presently under examination.

Very respectfully,

Applicant:
